SPECIAL THANKS

We want to take a moment to thank Derek, or as many of you may know him, Karneck. The ARC-ARM is heavily derived from his magnum opus, the KARM. Without the long hours he put into documenting rules interactions in Armada, none of this would have been possible - thank you for letting us build upon your efforts.

We also want to give a shout out to our Rules Gurus - @Stewbucket, @Elred, @DadVader, and @CptAwesomer for their many hours spent formatting, debating, cross referencing, and editing this document into a presentable format.

Thank you to all our ARC playtesters for their proofreading, encouragement, and feedback.

Finally, special thanks goes out to @ForestEXE and @Doty, who provided us with the template for the pages you're reading. Without their contributions and willingness to collaborate, the document would have been very much diminished. To see more of their fantastic work, head over to Armada Legacy and take a look.
